Robert,

Gee, it's been awhile. I hope your settling in well.

Over a year ago, Julie had engaged me on public participation ideas at CFAC. She also introduced me to Caryn Miske. Now that the Superfund status has been achieved, I reached out to Caryn about who I might contact to make an introduction on my services through TAG and other options for public engagement support. Caryn suggested I begin by contacting you. Any suggestions on when and with whom I might reach out? I'd prefer to contact interested citizens, but local government officials might also be appropriate in this case. Perhaps you can share attendance lists for recent public meeting? Any thoughts are appreciated. Thanks.
